The Silent Hunt Portable Game is a gem. The catch is that you have to buy a program called The Silent Hunt to get the game. The software costs a whopping \$1.99 and I can't blame them, it's a fun game but that is why I will not be reviewing this excellent software. Silent Hunt is a word based puzzle game with an element of fun in exploring the ancient city of Gondor and by summoning creatures that may or may not help you. The game is a mix of adventure and dexterity that can only be described as a puzzle game at heart, which is extremely rare to find in the modern day market. You are trying to advance through Gondor by finding secret passages and time stopping potions to gain access to an ancient chamber that would allow you to view the location of the chamber of Mordor. There are eight puzzles in all and with your character being limited to certain items you are forced to use and take advantage of, whether it is by unlocking a secret passage or using a potion to time stop and move along faster. The puzzles are challenging for the most part but it is the story that keeps the player going. Each puzzle has a different objective that will require good detective skills and then there's the pleasure of collecting all sorts of items and finding passages that you probably wouldn't have found otherwise. Overall, the game is well done and provides a great sense of accomplishment. One thing that I found to be a little annoying is how you have to use a paid software to unlock the potential of the game. In addition
